

DISCUSSION FLOW OF
WORKING GROUP

ENVIRONMENTAL PROTECTION 2

ISWI 2021

The Earth is what we
all have in common

Wendell Berry

ENVIRONMENTAL PROTECTION

ISWI 2021 gave chance to like minded individuals to come together as working groups and discuss specific problems challenging the concept of sustainable living and hopefully come to a solution.

INTRODUCTION TO THE TOPIC AND THE TEAM

- We met each other for the first time and realized the diversity in the group.
- There were participants from not just different countries but different continents
- Every one of us are motivated to look for a concrete solution for environmental protection.

THREATS TO ENVIRONMENT

- The first step was to analyze the major threats to the environment.
- Every member had stories from their native countries.
- Different experiences involving negative impacts on the environment.
- After discussion it was agreed that lack of awareness is the primary cause of environmental degradation.

ROOT OF THE CHALLENGE

- The discussion proceeded to find the root of the challenge.
- All the members suggested several roots.
- The common theme of all the roots was the missing implementation of ideas.
- To keep the topic alive and not loose interest at individual level we need a strong campaign

SOCIAL MEDIA CAMPAIGN

- In these tough times of pandemic, a social media campaign was suggested.
- This will attract wider audience and can be managed from individual homes.
- Fun challenges could be involved to keep the topic lively and alive
